OPENING OF PARLIAMENT.-As annamed by authority in our last, Parliament was for-nally opened by his Majesty on the 13th inst, at the same Church in this city.

nally opened by his Majesty on the 13th inst, at the Stane Church in this city.

Precisely at 12 M., the dicharging of guns from the Punch Bow announced that his Majesty had left the palace. Proceeded by the royal Hawaiian Insignia, and stained by Lieut. Gen. Prince Alexander and General of Briston, Prince Lot Kamehameha, and attended by his Ministers, and the Members of the House of Nobles, his Majesty proceeded to the place appointed, between two lines of uniformed police, stationed on either hand from the palace gate to the entrance of the church. On entering the enclosure of the latter, the band in attendance saluted his Majesty with the national anthomore. inclosure of the latter, the band in attend-his Majesty with the national anthem of God save the King.

The church, which will contain some 2,000 or 3,000

The church, which will contain some 2,000 or 3,000 soils, was well filled. The House of Representatives was in attendance, and when his Majesty entered, the whole assemblage arose and remained standing until the Divine blessing had been invoked by the Chaplain of the House of Representatives. The King's Speech.—His Majesty then read from the throne a speech in the Hawalian language, addressed to his well beloved "Nobles and Representa-

read from the throne a speech in the riawaiian language, addressed to his well beloved "Nobles and Representatives," in which he says:

"My relations with all foreign nations, excepting only Fanse, continue to be of the most friendly character."

A litle turther on he discourseth of the evil disposed Islamselizes, who in his mind, threatened an invasion of his higdom, and calleth "to arms" in this fashion:

"The peace of my kingdom has been threatened with an invasion of private adventurers from California. An appeal was made to the United States Commissioner, which being groundly acted on by Captata Gardner, of the United States ship landshe, tranquilized the public mind. I have taken some measures to create a military force, in the training of which Captain Gardner has been pleased to render important officials. Such a force has been considered indispensable, teasible me to protect efficiently the lives and property of who live un our my dominion. It will be for you to provide in means of maintaining such a force permanently, so if at the very defencelessness of my kingdom may not into the evil disposed to invade it."

He expresses himself very liberally toward his subjects, and tells them if they are not satisfied with the Constitution he granted them in 1840, he was ready to grant another, "for the good of my people."

Continuion he granted them in 1810, he was ready to grant another, "for the good of my people."

"THE ADDRESS.—As soon as his Majesty THE ADDRESS.—AS SOOR as Itis Majesty bed retired, A Paki, J. II, and R. Armstrong, were appeared by the "House of Nobles" to present "an Address" in reply to "the King's gracious speech." They open rich, and go through all the forms with undisturbed gravity:

Breaking of his Mejesty's offer to grant them a new Constitution, better providing for all the interests "of your [his] Mejesty's kingdom," they go on to say:

"Of these interests the first and most important we acknowledge to be these of your Majesty's severeign, and as, under God, we owe to your Majesty's generosity the gift of liberty which we happily enjoy, grattinds requires that we should not abuse that freedom, as we would do were we to sanction anything that would leave your Majesty's sover-implied without constitutional protection."

And wind up in the Santa Anna style with a burst of PREROGATIVE —It seems his Majesty

possesses the high prerogative of creating members of the House of Nobles, for in a subsequent session the fol-

lowing occurs:

His Majorty expressed a wish that the Princes Alexander and Lot be admitted as members of the House.

Upon motion of Mr. Wyllie it was resolved, that whereas its Majorty the King has declared his pleasure that the Princes Alexander Limbolino and Lot Kamehaunehs take their sesis as members of this House, the House receives them as THE HOUSE .- In the House of Repre-

THE HOUSE.—In the House of Kepfesentatives of M. Robertson was elected Speaker, and the Standing Committees appointed. The following masical names occur on some of them:

Committee on Education—J. F. B. Marshall, Chairman; Bareada, Kahookul, T. Metcaif, Nalapaakai.

Committee on the Judiciary—John Richardson, Chairman; Francis Fama, Monokaupu, Z. Kaauwai, Kalanhala.

Committee on Elections—John Kalili, Chairman; H. L. Sheldon, Z. F. Kaumaea, Laauni, Pali.

Committee on Accounts—Godfrey Rhodes, Chairman; S. M. Kanakau, Kapehe, Honokaupu, Kalauhala.

ANNEWATION. TO THE UNITED STATES.

ANNEXATION TO THE UNITED STATES. Mr. Sheldon effered a resolution expressing the disapprobation of the House upon the reports in circulation shroad, to the effect that the people of this Kingdom were desirous of coming under the American Government, and calling for an inquiry as to the source from shich such reports have emanated. Passed.

BACKING DOWN.—A little further down,

however, we came across the following, from which it would appear "my people" had changed their minds "Mr. Sheidon's resolution of yesterday was reconsidered, and, on motion, indefinitely postponed."

OATH OF ALLEGIANCE.—The number of

foreigners who have taken the oath of allegiance to his Majesty during the past year is 130. Natives of the Usiked States, 66; of Great Britain, 31; of China, 15; of Germany, 4; of British America, 2; of France, 1; of Other countries, 11.

REPORT OF TRICE - From this it appears the Government press, The Polymesian, besides printing a great deal of matter for the departments free, netted the treasury \$184 92 during the year ending 31st March last. An edition of 500 copies of the paper is published weekly, of which 400 are sold or sent to subscribers. Of the remainder, partare furnished gratinously, as heretofore, and the rest reserved for Government use and for binding.

BUSINESS OF THE ISLANDS .- A good Business of the Islands.—A good idea of the business done on the islands may be formed from the following statistics of licenses.—Licenses have been granted during the present year to the amount of \$25,042.25. The licenses were as follows: To wholesale atores, 22; retail stores, 143; to retail on plantations, 11; auctioneers, 10; hawkers, 182; wholesale liquor dealers, 12; retail flour dealers, 15; hotels, 9; tetusiling houses, 46; bowling alieys, 12; public show; billiard tables, 3; publishing ne wepapers, 2; letting boats, 24; jobbing horses, 162. The amount sold at public auction on the island of Oahu, the past year, was \$364.287.32.

FOREIGN LETTERS .- The number of foreign letters received and sent from December, 1830, in March 31, 1859, is as follows: Received from the United States, 6,088; from all other

oreign countries, 3,500. Forwarded to the Unitates, 9,199; to all other foreign countries, 6,000.

DOMESTIC PRODUCE. - The schr. Catherise returned to this port on the 13th, from Hanalel, Kauai, with 25,000 ib coffee, from the plantation of Mr. Tittomb at that place. We understand that his crop this year amounts to about 80,000 fb. We also learn that the crop from the plantation of 6. Rhods, Esq., for this year is 17,000 fb, most of which has been received at this place. It is estimated that there are 200,600 fb now on hand on the different islands. [Polynesian.

QUICK WORK .- A gentleman of this city received by the last mail, an answer to a letter sent le Boston, in 116 days—less than four months. Dates from New York of the 20th of February were received here on the 10th of April—48 days.

THE MAILS. - An arrangement has been completed with J. W. Gregory, Esq., for forwarding the U.S. malls for these islands, tunnediately upon their bede up at San Francisco-

We learn from The Polynesian that on the 2nd April the treaty with Great Britain of the 10th July, 1831, was raiffed by the contracting parties. The Pointerion says:

We have not yet been informed of the extent of this last cruption, but if it shall prove extensive we shall be informed by our attentive correspondent at Hilo. The late cruption did but little camage, having passed over an uninhabited district, and not meeting in its course either villages or cutil-vated land.

GALE .- A gale of unusual violence commenced blowing on Sunday last, and continued for about 30 hours with little abatement. It was accom-Paried with rsin, and a more uncomfortable time to et about was seldom, if ever, experienced at Honolulu. Much damage was done to trees, shrubbery, femore and course, and a long time will be required to repair the layer, especially to the gardens in this vicinity. The schooners Golden Rute and Manuokawai were though of from the schooners and a from hybridahip

The schooners Golden Rule and Manach whaleship thom of from the anchorage, and a French whaleship taken came to just as the gale commenced. All these vessels returned safe on Wednesday. We have heard of no disasters to shipping as yet among the Islands.

Coaster Lost.—A small coasting the light

schooner, essied the Keaweluahi, was jost on the 16th hat, at Ananola, Kaual. We have no particulars in regard to her crew. This is the fourth coaster lost at kaual during the winter, besides the American ship George Thatcher.

ECUADOR.

Much is said among us, in regard to the causes of Fiores' postponement of operations. Our be-lief is, that he has been delayed by the non-arrival of reinistrements which he desired, and by the character of the season. About the 15th of June, it is altogether probable that the soil of the savannas around Guaya-qui will become sufficiently dry to admit of the easy novement of artillery. About the same time, Gen. F. will Blobably receive reinforcements, and then we think the work will commence. [Panama Echo, May 31.

NEW-GRANADA.

We have dates from Bogota to the 14th

The Echo of the Andes, of the 1st May, has a strong and ably written article against the project now before the House of Representatives, for the re-establishment of capital punishment, and confiscation of property for political offenses.

Eco de los Andes, El Liberal, and El Pasatiempo, all strongly support Gen. Herrera as a candidate for the Presidency.

The Republican, a Popayan paper,

threatens a dissolution of the Republic, if Gen. Obando be not elected President in 1853.

We observe that the Congressional Rep-We observe that the Congressional Kepresentative of Panama, Don Justs Arosemena, has brought before the House of Representatives a proposition to reform the Constitution, which is supposed to be one of the most important documents likely to come before Congress during the year. This project, which has already passed two readings, has for its object the formation of a Federal State out of the Provinces immediately on the Isthmus, giving them full power to govern themselves, but still continuing to acknowledge alicelance to New-Grenada.

From what we see in the public papers. the idea of Senor Arosemena meets with considerable encouragement, and he is very likely to obtain the pas-sage of the bill in both houses, without any material opposition. [Panama Star, June I.

FROM CENTRAL AMERICA .- Advices have been received from Guatemala to May 7, and from Salvador to April 30. The news is of little interest. The President of Guatemala has published a decree for the regulation of the newspaper press. The United States Chargé d'Affaires, Mr. J. B. Kerr, has been admitted to a private audience with the President. Mr. Chatfield left Guatemala on the 3d ult., having resided eighteen years in Central America. Both States were in the enjoyment of general tranquillity.

BOSTON.

Trial of Elizur Wright.

Boston, Thursday, June 10, 1852. In spite of the utmost efforts of the bloodhounds, seconded by all the arts and cunning of Judge Curtie, the late editor of The Chronotype and Common. wealth, has escaped a conviction. He was told by a Jury of Old Hunkers, all the men with consciences having been previously excluded by the new method of packing introduced by Judge Sprague and followed up Judge Curtis. By this method a Jury was obtained ready and anxious, with one or two exceptions, to convict, and only wanting a decent pretense to do so, including at least one, if not more, who had, (as it has since been ascer tained,) strong personal antipathies to Mr. Wright.

As the case stood on the evidence, there appeared to be a point blank contradiction between the witnesses One of the slave-catching gang swore that Mr. Wright passed out of the court room just previous to the rescue was in the crowd exciting them to enter, and came in again with them. One of the Government witnesses, and three or four for Mr. Wright, swore positively that he did not and could not have gone out of the court, room, but remained in it as a mere spectator during the rescue, which did not occupy more than a minute in the In this conflict of testimony, it seemed to be difficult to

imagine how even the best disposed old Hunker jury could convict. But, in this emergency, Judge Curti came to the rescue. He began with laying down the totally false but plausible proposition, that in cases of conflicting testimony, the jury ought to search out some possible way of reconciling all the evidence; and having established this foundation, he labored, with the most ingenious art, to show, that by the help of this rule it might be possible, notwithstanding the conflict of evidence, to return a verdict of guilty. The thing was so admirably done as to impose even upon the reporter of The Commonwealth newspaper, who informs his readers this morning that the charge was a very fair one! It was just what the Hunkers on the jury wanted, an apology in spite of the evidence, for returning a verdict which suited their prejudices and inclinations. But luckily there were one or two impartial men on the jury by whom the plot was defeated. The ingenuity of Judge Curtis's charge was the admiration of all who heard it. As it is not to be Imagined that he took this opportunity to pay off any of his brother's old scores against Mr. Wright, we can only suppose that from his rawness on the bench he has not familiarized himself as to the difference between the position of Judge and that of prosecuting officer.

ANOTHER SHAMELESS SWINDLE .- " Re-

olced that \$3 000 be appropriated to pay the expenses of entertaining the officers of the Dutch Frigate; ALSO to pay expenses of Committee on the Mint," Such is the sententions paragraph which brushes three thousand dollars of the people's money away at a breath; bu the fun of the thing is that it is currently reported and generally believed, that a good partion of the \$3,000 went to pay the expenses of actual delegates and lobby memers from this City to the Loco-Foco Convention a Baltimore, and that when pressed for a report upon their labors in behalf of the Mint, the Fossil Committee on that subject, expect to show long tavern bills, the chief item in which will be mint juleps. The present Loco-Foco City Inculens (alias Common Council) have way of disposing of money as summary and effective as any band of footpads or other public plun derers could desire. A simple resolution is offered, not a word of debate allowed, (for if a refractory Whig ventures to ask for information he is forthwith throttled by the previous question gag,) and in no more time than it takes to call over the roll, thousands and tens of thousands of dollars are devoted to private pockets or party purposes. It is quite safe to say that before the close of the Presidential Canvass not less than \$2,500,000 will be voted from the City Treasury cetensibly for purposes of legitimate expenditure, but really to aid in the election of Pierce and King. anybody tell us if it is a fact, as currently reported, that the torches which blazed in the procession on Wednesday night were really filled with oil from Corporation casks ! If so, it is only a characteristic beginning, one which throws some light upon the future policy of the tea-room magnates. The Na tional Democrat said a few days ago that the present was the most shamelessly corrupt Common Council ever elected, and every body is convinced that the state ment was literally true. Entirely confident that they are deemed to be kicked out at the earliest opportunity, they have determined to feather their nests while they can, and the only zeal which they ever display is a esions rivalry for the honor of making the largest hauls from the tax-ridden people. They are utterly shame less and remorseless.

FREDRIKA BREMER having received, since her return home, so many letters and parcels fromstrangers in America, as to have made the heavy poet age thereon a severe burden to her, begs that such will hereafter send their letters and packages to the care of Marcus Spring, No. 22 Broad-street, New-York, (post paid) to be forwarded in some less expensive way -and all persons writing to her will do well to use thin silk paper. (Newspapers in different parts of the Union will oblige Miss B, by copying this.)

Stuyvesant-square, Second-av., is becoming a very imposing part of the City, so far as buildings, are concerned, and is very beautiful at this time as the many flowers and plants in the parks or squares are in full bloom and verdure. These are bounded on the north and south by Livingston and Rutherford-places; on the east they are intersected by Second-av., on the north of which are the costly and elegant mansion and grounds of Senator Fish; on the west stands St. George's Church, (Rev. Dr. Tyng, Pastor.) In the rear of the church, on Sixteenth-st., a very handsome brown stone dwelling is nearly completed for a parsonage; and it is understood that Mr. Gerard Stuyvesant is about to erect a handsome mansion on the vacant space between Fifteenth and Sixteenth-sts., parallel with the church, facing the east.

"WHERE ARE THE POLICE ?"-A day or two since, at about 4 o'clock P M, a countryman, so drunk that he could not stand for more than five minutes at a time, was reeling along West Broadway near Reade st., when he was kindly taken in charge by a young thief who must be well known to the Police of that neighborhood. The rascal assisted the country, man along for several blocks, during which time he managed to steal what money the man had, when he left him at Beach-st. The drunken fellow recled along, tumbling down every few rods, through Beach and Varick sts. up to Canal, thus making a slow journey entirely through the Fifth Ward without so much as glimpse of a Policeman. There seems to be a miserable want of energy in the Police of this Ward, but where the fault is we cannot say: we trust it is not among the

The only wonder is that the residents in the vicinity do not set fire to their houses and run off by the light of the dames. ARRIVAL OF MISSIONARIES FROM AFRIca.-The brig Lowder, Brown, arrived Saturday morning frem Sierra Leone, which port she left on the 6th of May, Among her passengers are Rev. J. L. Wilson and lady, belonging to the American Board, at Gaboon and Rev. J. W. Roberts and lady, of the Methodist Episcopal Mission at Liberia.

PHILIP S. WHITE, Esq., Past G. W. Patriarch of the Sons of Temperance, is in our City, and stops at the Irving. A good many friends of Tem perance hope to hear him before he feaves.

THE CITY ALLIANCE of the Friends of Temperance will have a meeting in Tripler Hall this evening, which will be addressed (among others) by Judge O'NEAL, the new Patrlarch of the Order of Sons of Temperance. A large and interesting meeting is expected. (See Card.)

ANOTHER IMMENSE CROWD .- The "Big Tent" was running over last evening and crowds out side that could not get in. The three meetings held at this Pavilion on Sunday were of a most interesting character. Rev. L. Burleigh preached a truthful able and searching sermon at 1014 A. Mr. B. held the audier ce an hour in attention. At 31/2 P. M. addresses were nade by Mr. Hadley, from Pennsylvania, W. H. Van Wagner and Mr. Beck. These gentlemen spoke in an able and practical manner. At 74s P. M. an immens audience came together and listened with deepest interest to Mr. Van Wagner for an hour or more, who spoke in his usually powerful manner-followed by Mr. Breckenbridge, who spoke in a most carnest and effective manner. This meeting closed amid the greatest enthu

THE LATE HOMICIDE IN TENTH-ST .-The Coroner on Saturday concluded his investigation relative to the cause of death of James W. Cooper, who received serious injuries at the hands of Thomas Hill, o butcher. The evidence showed that the deceased had previous to the assault used very insulting language to Hill, and had challenged him to come out on the side walk and fight. Hill, it appears, then rushed from his thop, knocked Cooper down and kicked him four times. thereby inflicting a mortal injury. The Jury rendered a verdict " that the deceased came to his death by gan. grene of the scrotum, caused by injuries inflicted on the 27th of May by Thomas Hill," which injuries caused death on the 9th inst. On the rendition of the verdict the Coroner, deeming that the offense was manelaughter only, required the prisoner to find ball in the sum o \$5,000 to await the action of the Grand Jury. The recuired security was not obtained and the accused was committed to prison. The deceased was a native of this State, 52 years of age.

COMMITTED ON A CHARGE OF ARSON .-On Saturday afternoon Justice Osborn proceeded to investigate the charge of arson preferred in May last against Pinkus Goldstein, who is alleged to have set fire to the premises No. 20 Morris st. on the night of the 21st of May. The accused is the person who, a short time since, was committed for trial, on the same charge, by the Chief of Police; but one of our Judges having de cided that the Chief has no power to commit for trial, it was requisite that his examination should be taken by Police Magistrate. Justice Osborn, after fully investigating the matter, committed the prisoner for trial.

JUVENILE MISSIONARY ANNIVERSARY .-The fourth anniversary of the Sands-st. M. E. Juvenile Missionary Society was held last evening, before a very full consregation. The exercises were opened with prayer by Rev. Mr. Vincent, after which the children sang a hymn, when the Annual Report was read by Wm. Edsell, Esq., Vice President of the Society. The report states that the Association was organized about four years ago, and, although small and insignificant as it was at the commencement, it has since increased the sphere of its operations and now presents a membership of over 600.

The object of the Society is to aid in extending Chris tianity throughout the world, and by unity in the cause they have contributed liberally to the support of Missions at home, while China and its millions of idolatrous worshipers in the East, and the Indian Missions in the West, have not been forgotten. The receipts during the past year have been \$626 67; the expenditures \$623 97-leaving a balance of \$270 on hand. Address es were delivered by Rev. Mr. Mercein, of the N Y Conference, Prof. Jaquess, of Illinois, and others. The children, who occupied the gallery, interspersed the proceedings by sizging a number of hymns selected for

By a recent Ordinance of the Commen Council, the entire police force of the city is required to be on duty on Sundays during the summe months. The law went into effect yesterday.

FIRE.-About 10 o'clock on Saturday night last, a fire broke out in a curpenter's shop on Myr tle-av., near Adelphi-st., which was entirely consumed, together with all contained therein. It was owned by Mr. George Brown, whose loss will exceed \$800-no insurance. An adjoining shop was also considerably damaged, but by the perseverance of the Police of the Fourth District, the flames were stayed before the Fire Department commenced operations. The fire was evidently the work of an incendiary.

RUN OVER .- A man named Barney Courtney was run over by a stage in Myrtle-avenue o Saturday night at the time of the fire and was badly burt. Officers Matthews and Russell, First Police, carried blm to his home on the corner of Gold and Til. lary-sts.

FINED .- The two pugilists, arrested at Red Hook Point, on Friday, were brought before Justice King on Saturday, and Weish, one of the principals, was fined \$20, and Burns, a second, was fined \$10.

A SMASH .- Officer Babcock took two men into custody yesterday evening for smashing each other's vehicles, in their anxiety to get out of the gate at the Fulton Ferry. The one was in a back and the other in a light carriage. The light carriage man hit the other with his whip, who returned the compliment, and the result, was both were taken to the Second District Station-house. Their names are Frederick P. Bar nard and John P. Son.

EXHAUSTION .- A German emigrant woman was found lying insensible in Fulton-st, on Saturday by the Second Ward Police, and was taken to the Station-house, where she was provided with medical aid. She was laboring under the effects of a long sea voyage, having just arrived in the country.

RESCUED FROM DROWNING .- A small boy named Lawrence Kluney narrowly escaped drowning at the foot of Jay-st., on Saturday evening, having got into the water beyond his depth. He was rescued by Wm. McDonald, who plunged in after him.

STABBING .- A man named Thomas Kells was arrested yesterday by the Second Police for stabbing his cousin, John Kells, in the arm with a dirk buile. The wound is a very severe one.

WILLIAMSBURGH ITEMS.

ADJOURNED .- The General Synod of the

Reformed Datch Church adjourned its annual session on Friday evening last, and will meet in Philadelphia on the first Wednesday in June, 1853. The only bustness item of interest, after the close of our report of its proceeding on Friday, was the oppointment of Rev. Dr. DeWitt, Rev. Dr. Ferris, and Rev. Dr. Fisher, a Committee to superintend the religious periodical, (The Christian Intelligencer,) which is the organ of that denomination. It was stated in the detate on that subect, by Rev. Dr. Bethune, that articles not in accordance with the creed of that church, and which could not be indorsed by her ministry, had been inserted in the columns of that paper-therefore, the appointment of this Committee to look after the tone of the organ of the denomination. Rev. Dr. Abeel, D. D., President of the Synod, made the usual address at the close of the session. VENTILATION OF CELLS .- The Williams-

ourgh cells are excellently ventilated by patent iron apertures about two inches in hight and fourteen to six teen inches long. One of these is placed in the wall. near the floor, and the other near the ceiling. There are various cells in this vicinity which require this improvement. For instance, the cells of the Female Department of the Kings County Jall were so constructed that a proper ventilation was not provided. It has been imrudent to confine the female prisoners in them. They have, therefore, been, of necessity, allowed to mingle, with a decidedly injurious moral effect. It is frequently the case that persons deserving of disciplinary justice are let off, under the conviction that to go into the fe, male prison would render them ten fold more vicious, And if it so happens that an innocent and friendless fomale gets into jail, awaiting trial or otherwise, the hemiliating contact which she suffers, in a society of which the dregs of wickedness are the surface, can or iy be justify appreciated by a fertile imagination. Some action has lately been had by the Supervisors of Kir.gs County,

to remedy the fault; and it may be well that this improvement in the ventilation of cells should rec ir attention, having been highly approved by the New-York Chief of Police and others of experience in such matters.

CORPOREAL PUNISHMENT .- Over fifty corporeal punishments, it is stated on competent au-thority, were inflicted during last week in one of the Public Schools of Williamsburgh. A different system mild, but successful,-has been pursued in New-York City, which may prove beneficial to the moral, mental and physical education of the pupils of the School above referred to, and othersaimilarly managed, if the parents and teachers of Schools will inform themselves of its merits.

FOWL DEPREDATIONS -At midnight, on Friday, Officers Thompson and Hinds arrested two men coming through Graham-av. from the rural districts, having a bag of live greec, bound to New-York and a market. Believing them to be stolen, as is commun. they caused the parties to be turned into the cells for

PROVIDED FOR .- A lady of Williamsburgh, member of a Society there which provides for the welfare of friendless children, has provided a home for the child recently taken from the family of Mr. Ste phenson for alleged bad treatment. Mr. S. denies the charges, and asks for a trial now, instead of its postponement on ball,

UGLY HUSBANDS .- Two intemperate husbands were sentenced to jail, one for 30 and the other for 90 days, by Justice Boswell, for abusing their wives. KILLED BY FALLING FROM A BUILDING.

—On Saturday morning, about 9 o'clock, a marble sotter named John Bergen was instantly killed, by being precipitated from the third-story of a building on the corner of Fulton and Nassau-sts. When picked up life was extinct. Deceased was in the employ of Mr. Gillen, and resided at the corner of Smith and Bergen-sts. He was a single man, about 25 years of age.

SATURDAY, June 19-P. M.

There is a continuation of the buoyant feeling in the Stock merket, which we have before noticed, and there is evidently a much larger disposition to operate than the market has evinced for the last month or two. Some of the largest operators are buyers for a rise, with the same confidence that they exhibited when prices were 5 to 10 per cent. lower, and we see no disposition among those who usually form the bear interest of the street to make an important movement. Reading was very firm, closing at 81%. Erie was also buoyant. going to 87%. Norwich advanced to 55%. Long Island. 2014: Zine, 1214; Canton, 7914; showing a firm market. Delaware and Hudson is still moving upward, and sold at 123, an advance of 9 per cent. since the dividend was declared. Michigan Central again advanced to 106%. Madison sold at 110, an advance of I per cent. Hadson River was steady at 621/2. For Government and State Stocks the market is firm and the demand good. Railroad Bonds were in fair request and generally were a little higher. Erie's were firm. Michigan Southern ad-vanced to 99, and Northern Indiana to 98. Harlem Extensions 81. At the close, the market was very firm.
